PRESS RELEASE

**VINCI Park continues to grow**

VINCI Park, the world leader in parking facilities, is continuing to expand:

- in the United Kingdom, VINCI Park was awarded the contract to manage on-street parking and 13 car parks, totalling 5,000 spaces, in Liverpool. This follows the acquisition of the car parks at the Cardiff and Dundee hospitals with a combined capacity of 5,200 spaces.

- in France, in addition to obtaining 15,000 new spaces nation-wide, VINCI Park won the competitive bidding for a number of large contracts up for renewal, notably the contract to manage the car parks at La Défense which covers 24,000 spaces and was extended for a duration of 5 years.

Overall, VINCI Park has been entrusted with the management of nearly 23,000 new parking spaces in France and abroad since the beginning of this year.

This success reflects the company's ambitious service and customer focused policy, which has been well received by users and local authorities alike.
